

Figure 1 is a line graph showing the percentage of total sample for each age group across different years. The Y-axis is labeled 'Percentage of total sample' and ranges from 0 to 100. The X-axis is labeled 'Year' and ranges from 1980 to 2000. The legend indicates that the percentage of the total sample for each age group is shown by a different line style: 0-14 (solid line), 15-24 (dashed line), 25-34 (dotted line), 35-44 (dash-dot line), 45-54 (long dashed line), 55-64 (short dashed line), 65-74 (dash-dot-dot line), and 75+ (solid line with markers). The graph shows that the percentage of the total sample for the 0-14 age group decreases over time, while the percentage for the 65-74 age group increases.
